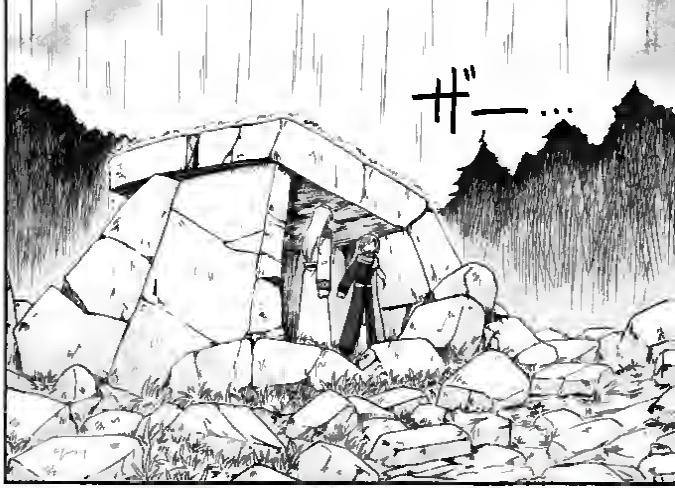
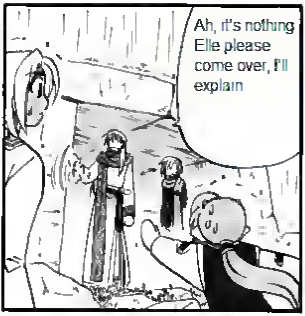
Chapter 54
Spirit of the Moon part 4

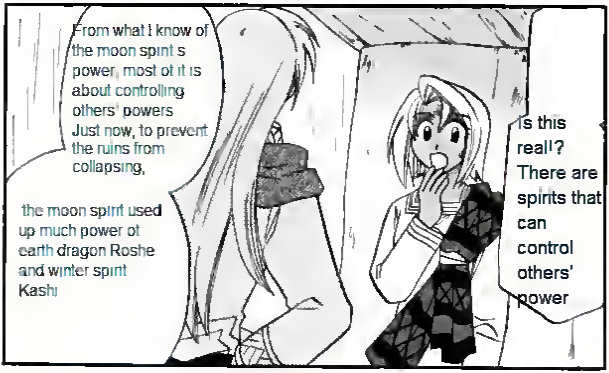


Ah, Elle Kadio-san and Marciel-san are over there
Ah, Marciel is really here
Lync, don't come any close!
Huh?
Kadio-san! Marciel-san!



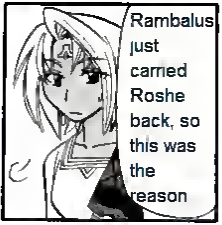
Ah, it's nothing Elle please come over, I'll explain

The moon spirit can control a dragon's power?

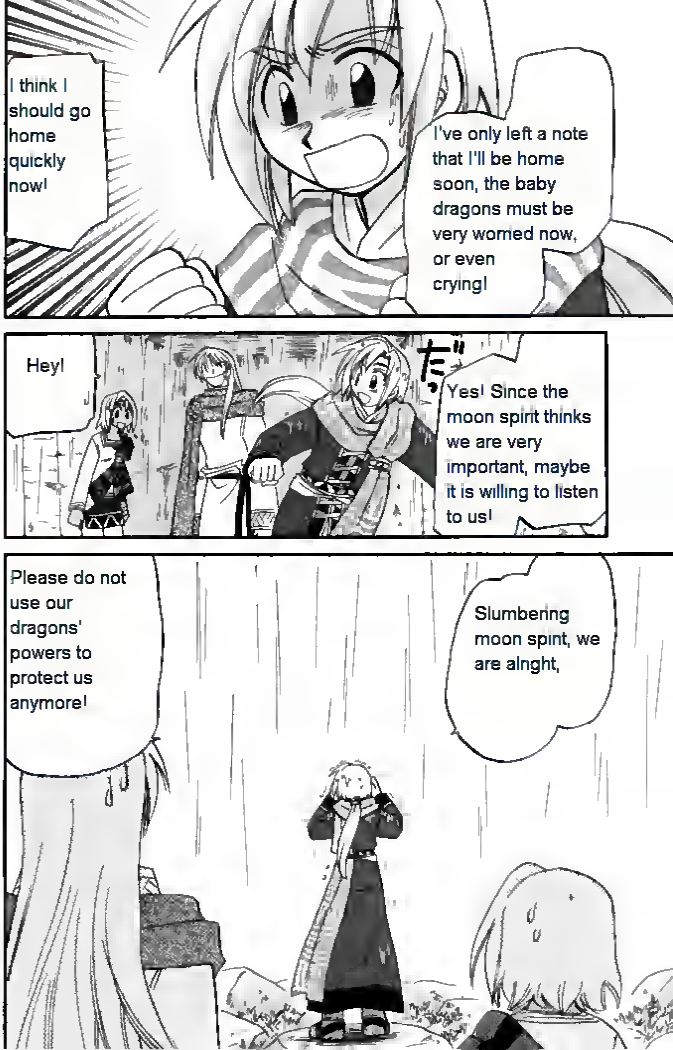


From what I know of the moon spirit's power, most of it is about controlling others' powers Just now, to prevent the ruins from collapsing,
the moon spirit used up much power of earth dragon Roshe and winter spirit Kashi
Is this real? There are spirits that can control others' power

We can only wait till the sleeping moon spirit goes back to sleep again
What?
Then what can you do? The two of you can't be near dragons, so you can't go home?

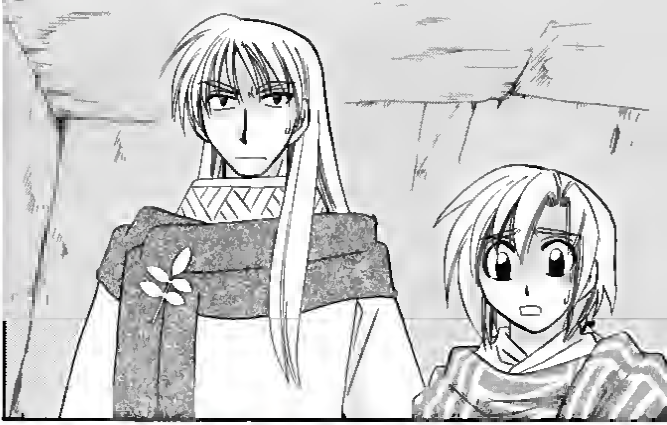


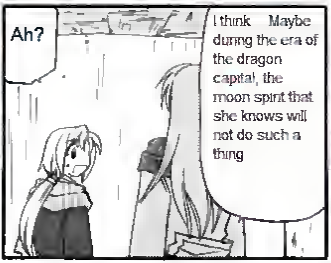
Rambalus just carried Roshe back, so this was the reason



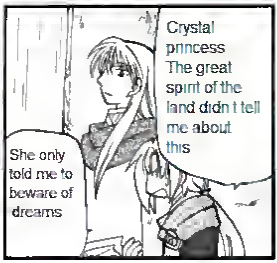
I think I should go home quickly now!
I've only left a note that I'll be home soon, the baby dragons must be very worried now, or even crying!
Hey!
Yes! Since the moon spirit thinks we are very important, maybe it is willing to listen to us!
Please do not use our dragons' powers to protect us anymore!
Slumbering moon spirit, we are alright,

Marciel! Get over here quick!
What!?
El... Elle Suddenly I'm feeling very weak
Ah... huh? Strange? I'm feeling better now.
Lyric!! Are you alright, Lyric!?

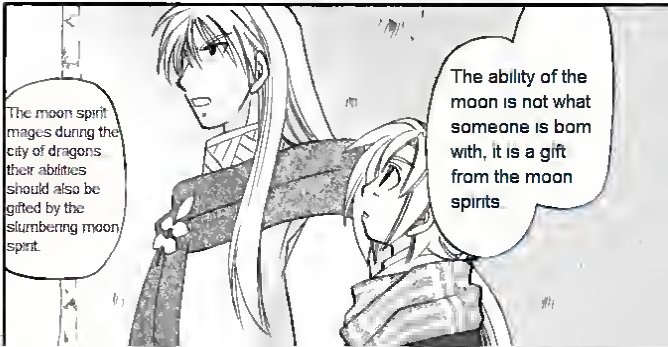




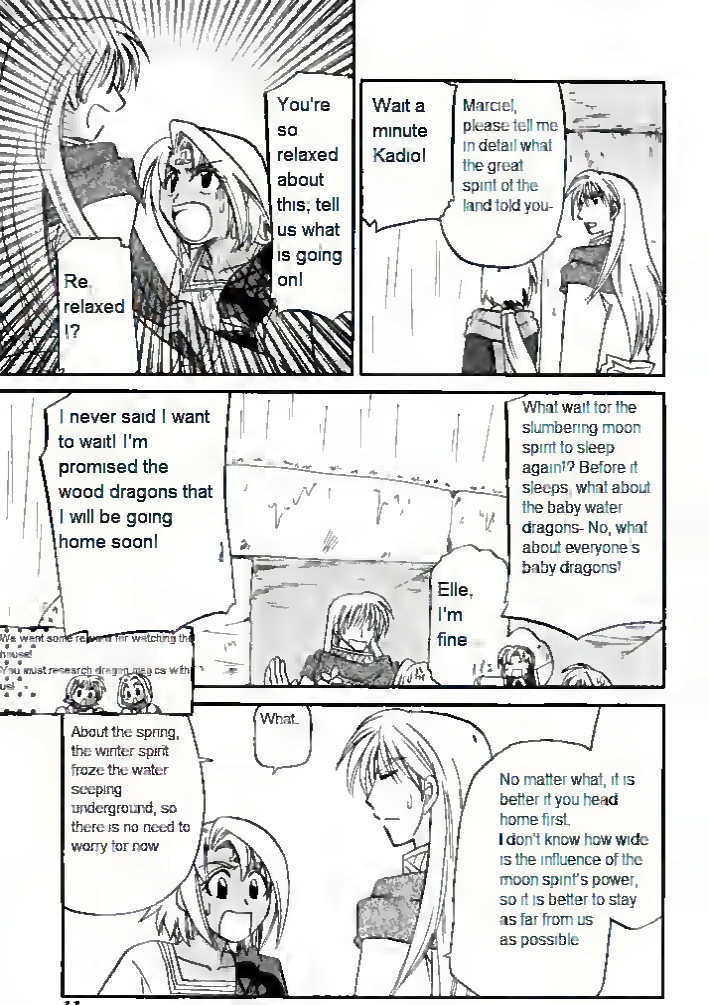
Ah?
I think Maybe during the era of the dragon capital, the moon spirit that she knows will not do such a thing



Crystal princess The great spirit of the land didn t tell me about this
She only told me to beware of dreams



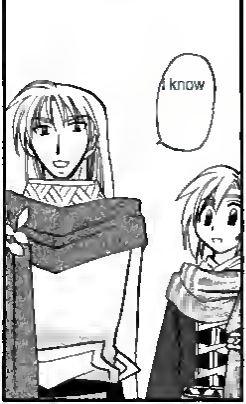
The moon spirit mages during the city of dragons their abilities should also be gifted by the slumbering moon spirit.
The ability of the moon is not what someone is born with, it is a gift from the moon spirits



You're so relaxed about this; tell us what is going on!
Re relaxed !?
Wait a minute Kadiol
Marciel, please tell me in detail what the great spirit of the land told you-
I never said I want to wait! I'm promised the wood dragons that I will be going home soon!
What wait for the slumbering moon spirit to sleep again!? Before it sleeps, what about the baby water dragons- No, what about everyone's baby dragons!
Elle, I'm fine
We want some reward for watching the house!
You must research dragon magics with us!
What.
About the spring, the winter spirit froze the water seeping underground, so there is no need to worry for now
No matter what, it is better if you head home first. I don't know how wide is the influence of the moon spirit's power, so it is better to stay as far from us as possible

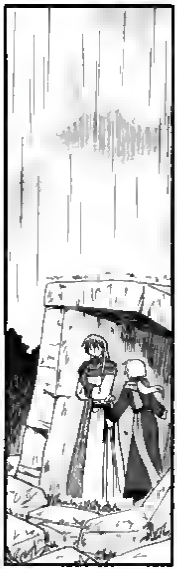
You have some way to handle this?
You can say so
I understand. I'll be heading back first. Mileus taking shelter from the rain, I'll inform them to go home too
Let's go, Lyric
Huh!? Ah!
If you can't handle it, then inform us quickly!

This
This is great! Everything will be fine now!
Then what should we do now? Let's get it done quickly!

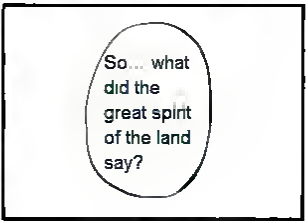


I know

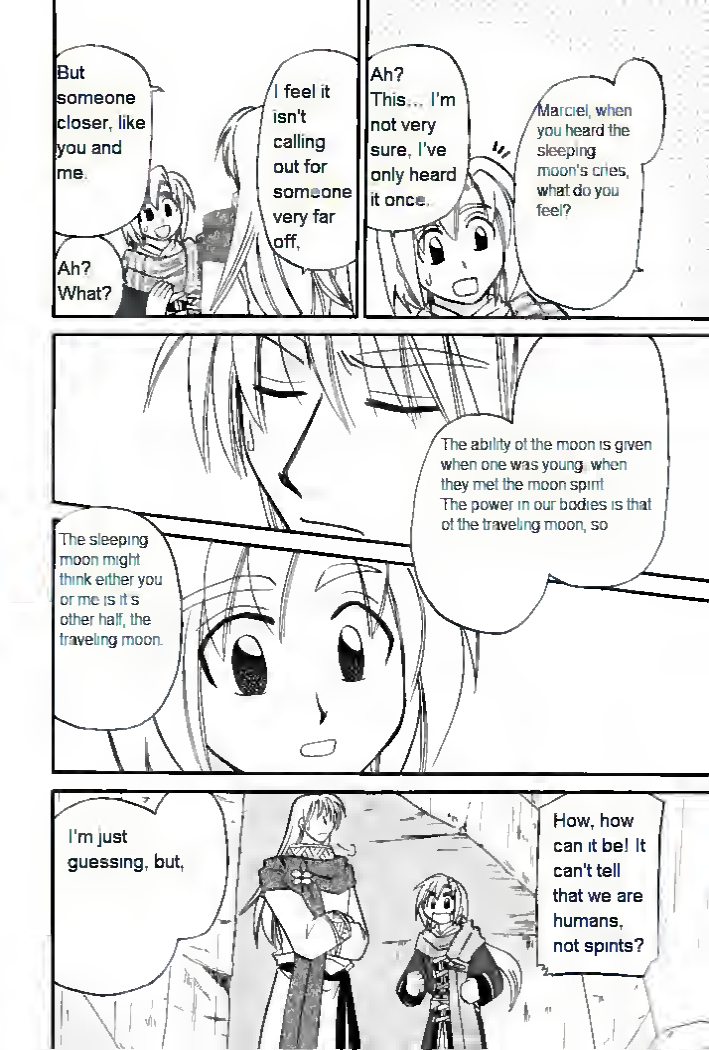
Calling out its other half, the travelling moon's name, wanting to meet.



huh?

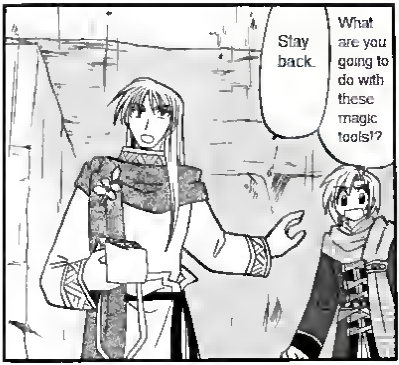


So... what did the great spirit of the land say?



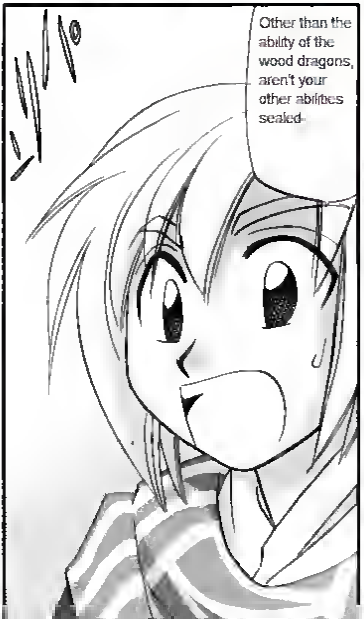
But someone closer, like you and me.
Ah? What?
I feel it isn't calling out for someone very far off.
Ah? This... I'm not very sure, I've only heard it once.
Marciel, when you heard the sleeping moon's cries, what do you feel?
The ability of the moon is given when one was young, when they met the moon spirit
The power in our bodies is that of the traveling moon, so
The sleeping moon might think either you or me is it's other half, the traveling moon.
I'm just guessing, but,
How, how can it be! It can't tell that we are humans, not spirits?

The sleeping moon...
When it is dreaming and yearning to meet its other half, and found those resembling the traveling moon in danger, that's why it woke unconsciously...
But when there are two of us, and it doesn't know who is the real one... I think this is the situation now.
Really wants to meet the traveling moon so much?
I wish we can help them meet.
This is not possible, we don't know where the traveling moon is
Kash said so, too
But the only one who can make the sleeping moon calm down and listen is the traveling moon.



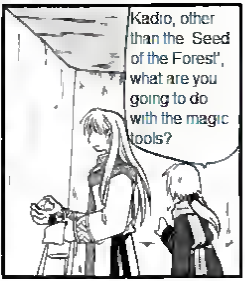
Stay back.
What are you going to do with these magic tools!?

Alright?
Marciel, let me the magic tools Roshe left behind.



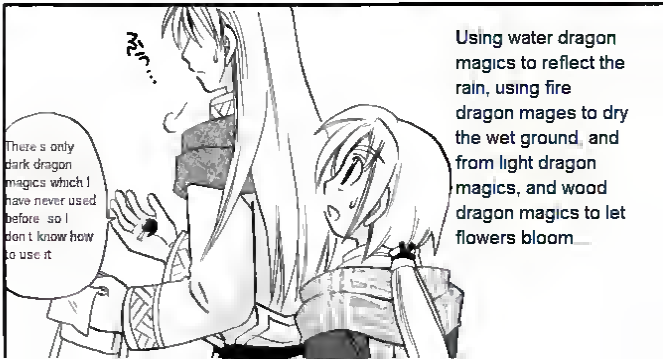
Other than the ability of the wood dragons, aren't your other abilities sealed

Huh!?

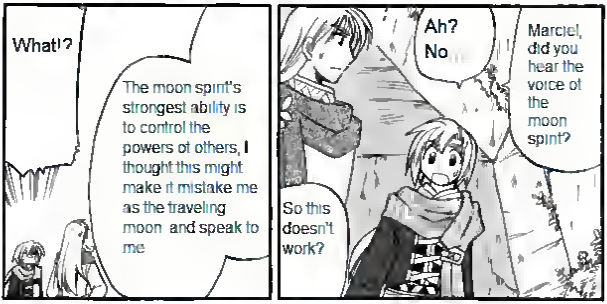


Kadio, other than the Seed of the Forest', what are you going to do with the magic tools?

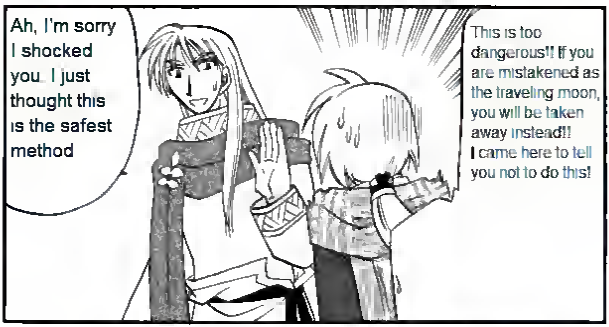
Water dragon magics!



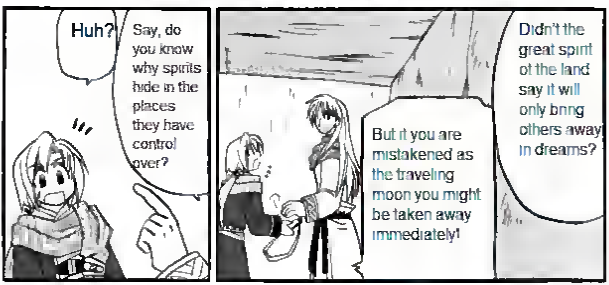
There s only dark dragon magics which I have never used before so I don t know how to use it
Using water dragon magics to reflect the rain, using fire dragon mages to dry the wet ground, and from light dragon magics, and wood dragon magics to let flowers bloom



What!?
The moon spirit's strongest ability is to control the powers of others, I thought this might make it mistake me as the traveling moon and speak to me
Ah? No...
Marciel, did you hear the voice of the moon spirit?
So this doesn't work?



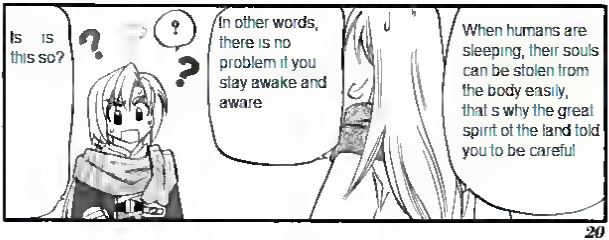
Ah, I'm sorry I shocked you. I just thought this is the safest method
This is too dangerous!! If you are mistakened as the traveling moon, you will be taken away instead!! I came here to tell you not to do this!



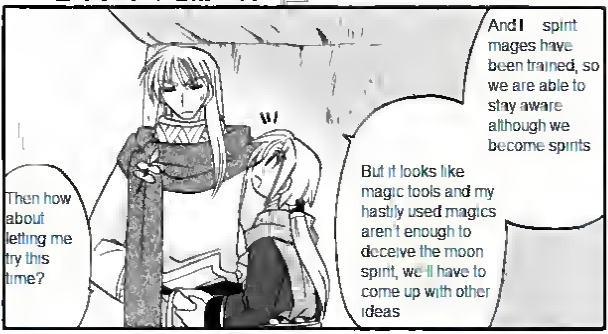
Huh?
Say, do you know why spirits hide in the places they have control over?
But if you are mistakened as the traveling moon you might be taken away immediately!
Didn't the great spirit of the land say it will only bring others away in dreams?

Spirits may resemble humans, but they are more like what humans call 'ghosts'
Although strictly speaking there are many differences, but they are mostly like this
The places spirits control is their actual body. If we think of them as humans, then the human's soul is the spirit, and the place they control is the body
Hiding in their bodies will be the safest, their power and consciousness will be highest

Um...
?
Ah, this means when dreaming your consciousness won't be clear?
The basics of spirit magic is to transform one's soul into a spirit to capture one. If the person doesn't concentrate, they will fall into a dreamlike state of unease.
In very rare situations, your soul might even be stolen away by the spirit you are trying to capture

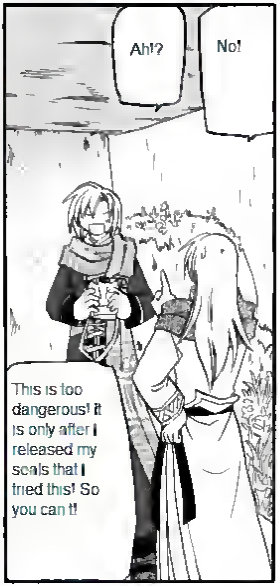


Is is this so?
?
?
?
In other words, there is no problem if you stay awake and aware
When humans are sleeping, their souls can be stolen from the body easily, that's why the great spirit of the land told you to be careful

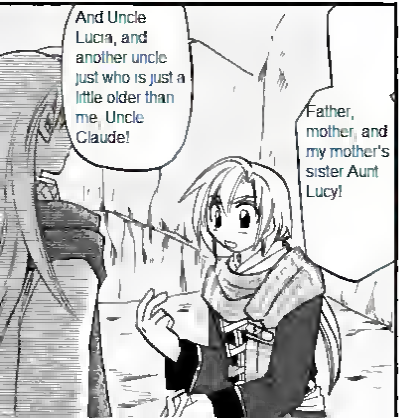


Then how about letting me try this time?
But it looks like magic tools and my hastily used magics aren't enough to deceive the moon spirit, we'll have to come up with other ideas
And I spirit mages have been trained, so we are able to stay aware although we become spirits

This is different
I remembered the dreams I have recently! The people's faces and names in my dreams, I remember them clearly!

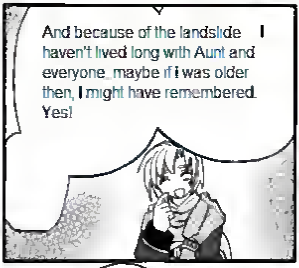


Ah!?
No!
This is too dangerous! It is only after I released my seals that I tried this! So you can't!

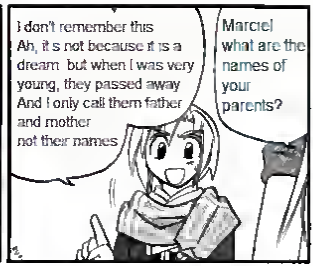


And Uncle Lucia, and another uncle just who is just a little older than me, Uncle Claude!
Father, mother, and my mother's sister Aunt Lucy!

I still remember how Aunt s village look like, it is kind of like Corseltel, and there is a lake
Kadio?
How how can this be ?

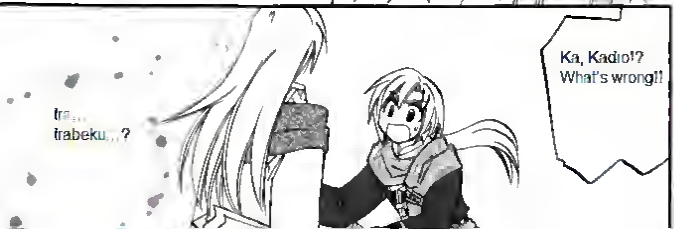


And because of the landslide I haven't lived long with Aunt and everyone, maybe if I was older then, I might have remembered. Yes!



I don't remember this
Ah, it's not because it is a dream but when I was very young, they passed away
And I only call them father and mother
not their names
Marciel what are the names of your parents?

I have two uncles who went to the city to work, if I can find them, then I might know



Ka, Kadio!?
What's wrong!!
tra...
trabeku...?

Irabeku
Are you really
Irabeku?
Are you sad?
Are you in pain?
Then

Come back
Come back to my
side

The moon
Woah!
Kadto!!
